

TELENDOS

Sector PESCATORE – new routes (october 2008) -

All the 5 routes by **Bruno FARA** and **Renée GUERIN** - Bolts and belays Ø 12 mm in Inox -

1) **LUKAS BAD BOY: 5c – 30m - (13pts) *****

A nice route with a well protected crux at its top. Lukas is my 3 years old grandson .. a naughty boy ☺ .

2) **HOT ROC: 5c – 30m - (12pts) **** (♪)**

Same grade than its neighbour, both excellent for warm up. Hot Roc is my club, the one that paid the inox gears !

3) **AGELICA BABIS BAR: 6b+ - 30m – (13pts) *****

Best studios in Myrties for the lower price ! Less hard than it seems. On my rope I thought it was a 6c or 7a, in fact it's only a good 6b+ !

- Forza 99 (may 2008)
- Karabolas (2007)
- Rita (2007)
- A l'ovest di Kaboul (may 2008)

4) **LEANE: 6a+ - 30m – (12pts) **** (♪)**

Perhaps the best one in this sector, varied and which requires a constant effort until its top. Leane is my 19 months old granddaughter

5) **AXEL: 6a+ - 20m – (9pts) ******

Only 20 meters, but a nice route regarding its grade. The belay is same level as Easy. Axel is my 9 months years old last grandson !... the last one !

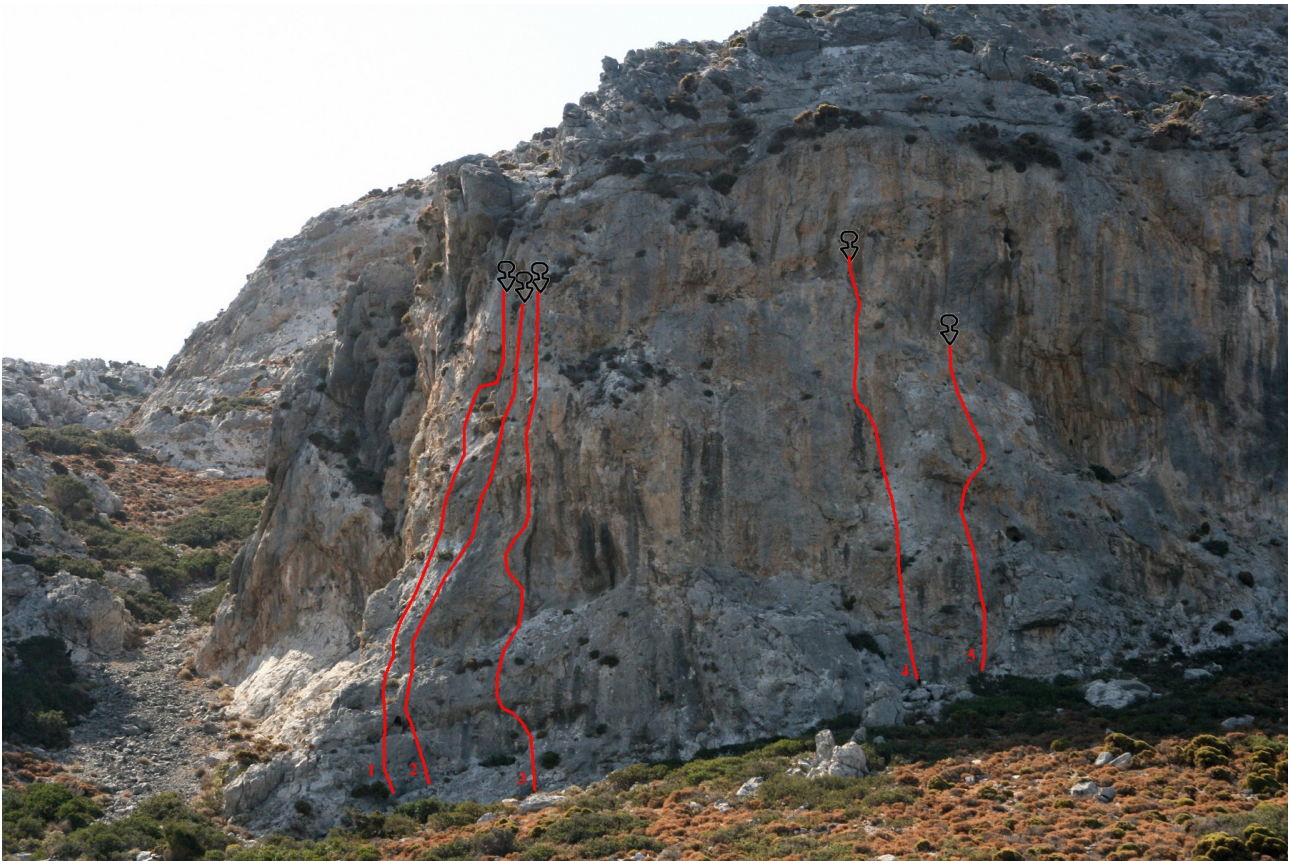

KALYMNOS

Sector THE GHOST KITCHEN - new routes (november 2008) On the left of Rigani -

By **Bruno FARA** and **Renée GUERIN** - Bolts and belays Ø 12 mm in Inox

1) **OLYMPIAKOS FOR ELIAS: 6b+ - 35m – (15pts) **** (♪)**

Elias is the Babis barman. He's a big fan of Olympiakos football team! The route is 35 meters high and needs 15 quickdraws without the belay (but you can easily remove some of them to use above). Well protected because it needs a constant effort until its top, without easy sections. No doubt that it's at this grade a good warm up before the tufas sector.
